LeetCode

Portfolio

EDUCATION

Institute of Engineering and Technology, Lucknow

2021 - 2025

Bachelor of Technology - Computer Science and Engineering (AI) - CGPA - 7.91

Lucknow, Uttar Pradesh

EXPERIENCE

Nasya Software Technologies

Jan 2025 - Present

Full Stack Developer Intern

Full Time

Technologies: ReactJs, JavaScript, MaterialUI, Python, Flask

- Ensured application reliability with Postman API testing and seamless deployment.
- Collaborate with team to develop features, enhancing user experience and application performance
- Implemented debouncing in search functionality, reducing API call costs by 60 Percent and improving performance.

Ricoz Private Limited

Nov 2023 - May 2024

ReactJs Frontend Developer Intern

Remote

Technologies: MERN Stack, Redux, RESTful APIs, JavaScript, HTML, TailwindCSS, ApexCharts

- Developed a courier service website MyFastX from scratch: Featuring Customer, Partner, Admin section and applied RESTful APIs to facilitate seamless data exchange between frontend and backend systems.
- Implemented optimized SEO, authentication using JWT for secure session management, state management with Redux Toolkit and enhancing performance by 40 percent

SKILLS SUMMARY

Languages and Tools

C/C++, JavaScript, SQL, Postman, GitHub, Python

Coursework

OOPS, DBMS, OS, ML

Database

MongoDB, MySQL

Frameworks and Library

ReactJs, NextJs, NodeJS, Redux, ExpressJs, Tailwind

Soft Skills

Problem solving, Teamwork, Time management

PROJECTS

MyFastX Website

Nov 2023 - Mar 2024

- Developed a responsive and dynamic website for MyFastX Courier Services using MERN stack.
- Integrated OTP authentication, password encryption, and progress visualization through interactive maps and charts for enhanced security and user experience.

ReCart Project

Sept 2024 - Nov 2024

- A platform enabling users to list and sell pre-owned items, with a contact feature for buyer-seller communication.
- Enabled logged-in users to easily create, update, and delete listings with high-quality images, and connect with interested buyers directly and dynamic search and filter system for easy discovery.

Prepeat website

April 2024 - May 2024

- A website to simplify daily requirements, including tiffin delivery, chef services, and laundry assistance.
- Implemented smooth loading effects, sliding animations, and transitions for an enhanced user experience, with lazy loading and smooth animation effects using AOS for optimized performance.

Drowsiness Detection

Oct 2024

- Developed a Python-based system using OpenCV and Dlib to monitor driver alertness by analyzing facial landmarks and eye movements.
- Utilized Python, OpenCV, Dlib, and Numpy for facial detection, eye tracking, and real-time video processing.

ACHIEVEMENTS

- * **LeetCode:** Top 7 percent with a highest rating of 1812.
- * **Codeforces:** Solved 200+ questions to improve problem-solving skills.
- * **IET, Ankuran Robotics Competition:** Member of Fractal (Coding Club) IET Lucknow.
